Children's Picture Book Layout

32 Pages = 12 Spreads + 2 half pages + 4 Front Matter + 2 Back Matter

This is only one type of layout. Children's picture books are usually 300-500, max 1000 words, and 28-32 pages. There is a variety of ways to organize them. I suggest you look at various books in print to find they style you like and what you want to include or exclude.
